PP4MNK XFCE-FUSILLI PERFORMANCE CERTIFICATION

Official System Performance Report — 2026

Certification ID:	PP4MNK-XFCE-FUSILLI-2026-001
Certification Year:	2026
System Engineer:	pp4mnk / Ibáñez Hinojosa
Reference Uptime:	24 Hours Continuous Operation
System Score:	95 / 100
Performance Level:	PROFESSIONAL GRADE

CORE PERFORMANCE METRICS

CPU Model:	Intel Core i5-680
Memory:	11863 MB RAM
Storage:	SSD
Desktop Environment:	XFCE
Window Manager:	Xfwm4
Compositor:	Disabled
Network:	Gigabit Ethernet (1000 Mb/s)
Measured Download:	~99 MiB/s

TECHNICAL VERDICT

This XFCE-FUSILLI system has been optimized to operate near the maximum practical performance limits of the installed hardware. All major system domains — CPU, memory, disk, network and graphical interface — operate within high-efficiency parameters. Further measurable improvements would require hardware upgrades rather than additional software optimization.
